THE INTERNATIONAL WAGE TABLE BOOK

Owing to the persistent demands from many of our customers for a Wage Table Book, indexed according to the RATE PER HOUR, instead of day or week, as is usual in all of the wage tables on the market, we have compiled this book. By basing the index on the rate per hour, the book is especially valuable in all establishments, whether working eight, nine, ten, or any other number of hours a day.

Where the fractional part of a cent occurs, if it is one-half or over, it is given to the workman. Under one-half to the employer.

This book contains rates from five to fifty cents per hour, increasing by half cents; and from one-quarter to eighty hours, increasing by quarter hours.
